Range Safety Rules

Firing Line Flag System

MAIN RANGE RED FLAG MUST BE RAISED WHEN RANGE IN USE.

RED = DANGER: Range in use, firing underway. No Movement forward of the firing line is permitted.

GREEN = SAFE: Range not in use, all firearms cleared. Movement forward of the firing line is permitted.

Range Safety Rules

- The RANGE OFFICER has absolute authority at all times. Anyone disobeying his or her commands will be asked to leave
- A "Cease Fire!" may be called by anyone who identifies an unsafe or dangerous situation happening on the firing line.
- The RED FLAG at each active range location will be raised prior to any shooting, indicating that the range is active and that shooting is allowed.
- The GREEN FLAG at each active range location will be raised prior to moving down range, indicating that the specific range area is safe and NO shooting is permitted.
- The FLASHING LIGHTS at the 100 metre to 500 metre rifle range will be activated prior to moving down range, indicating that the range is safe and NO shooting is permitted.
- Hearing and eye protection are required.
- No handling of firearms or dry-firing of firearms permitted behind the firing line or when people are down range.
- No firearm will be loaded until on the firing line and only on the Range Officer's command.
- The use of alcohol or drugs before or during shooting is not permitted.
